

Bring a TeachingWorks Workshop to You!

Partner with TeachingWorks to bring one of our signature workshops to your program or campus. Or work with our expert facilitators to design a completely custom workshop tailored to your specific needs. We travel to you so that your entire team can participate in professional learning that focuses on the high-impact practices, content, and equity topics that matter most to you, using the methods and structures that best suit your needs.

Signature Workshops

Foundations of Practice-Based Teacher Education Workshop

Bring the [Foundations of Practice-Based Teacher Education Workshop](#) to your program for a flat fee plus facilitator travel expenses. This workshop provides a comprehensive introduction to the foundational ideas and skills of practice-based teacher education and equips you with the tools and strategies needed to design or redesign instructional activities in your own courses or programs.

Choose between an abbreviated, one-and-a-half-day version of the workshop or a more extended version lasting two-and-a-half days with opportunities to practice coached rehearsals. Both options include two pre-event meetings between the event coordinator in your program and our facilitators to ensure we address the issues and topics most relevant to your needs.

Backwards Design Institute for Teacher Educators

Bring the [Backwards Design Institute for Teacher Educators](#) to your program for a flat fee plus facilitator travel expenses. In this focused, one-and-a-half-day workshop, we will apply the tenets of backwards design to build a clear, shared vision of what teacher candidates will learn to do in your program and give you the tools you need to use that vision to shape your courses and field experiences.

This workshop includes three pre-event meetings between the event coordinator in your program and our facilitators so that we understand and address the design challenges you face. We will tailor the Institute to your needs and can support work on specific courses or programs.

Custom Workshops

Interested in a completely custom workshop? We will work with you to design a professional learning experience that meets your needs and takes place at your location. While we can design almost any kind of professional learning focused on practice-based teacher education, custom workshops usually fall into one of two categories:

Pedagogy workshops

We will work with you to build a workshop that focuses on using specific practice-based pedagogies (e.g., video analysis, rehearsal) to teach high-leverage practices. We can foreground specific high-leverage practices, specific pedagogies, and/or specific content areas, depending on your needs.

Problem of practice workshops

Is your program facing a specific challenge? Are you looking for support in designing instruction to meet a particular state requirement or other curriculum-related goal? Are you looking to change something based on feedback from teacher candidates? We will work with you to design an appropriate workshop based on your goals and the issues you are facing.

Each custom workshop includes three pre-event meetings between you and our facilitators. Please note that custom workshop fees may change if your needs exceed our usual planning expectations.
