Fee: \$375 | Deadline: April 30, 2027

May 20–21, 2027

Marsal Family School of Education, University of Michigan, Ann Arbor, MI

Join us for Beyond Foundations: Practice-Based Pedagogies Deep Dive, a one-and-a-half-day in-person event geared to teacher educators interested in continuing to develop skill with practice-based pedagogies. We will build on the Foundations of

Practice-Based Teacher Education Workshop by digging more deeply into several powerful pedagogies of teacher education, including using videos and transcripts to introduce and help teacher candidates practice practice.

**Together,
we'll explore
the following
questions:**

How can I identify or develop videos and transcripts of classroom teaching that will help me prepare teacher candidates to enact high-leverage practices and manage common classroom challenges?

What forms of simulations can I use besides rehearsal, and what is involved in designing and facilitating them?

What to expect at Beyond Foundations: Practice-Based Pedagogies Deep Dive:

- An in-depth look at powerful pedagogies of teacher education, including video of the pedagogies in action
- Access to sample lesson plans and other instructional materials
- Opportunities to try creating your own materials, and to receive feedback from the facilitators and other participants
- Time to pose and discuss problems of practice that have arisen in your own teaching
- Regular discussion of the equity implications of practice-based teacher education

Leave the Deep Dive with:

Tools and Strategies for Making Teaching Learnable

Leave with sample lesson plans and other materials that you can use in your own teaching.

Your Own New Lesson Plans

Create a new or redesigned instructional activity to carry out in your own teaching.

Richer Understanding of Professional Challenges

Deepen your appreciation of the challenges endemic to practice-based teacher education, and some approaches to managing them.

A Certificate

Walk away with a digital, printable document that certifies you as a graduate of the Deep Dive and identifies the dates during which you participated.
